

Jefferson County Department of Emergency Management Presents:

HAM RADIO

TECHNICIAN LICENSE COURSE

JULY
15-16

9-5 Sat., 9-4 Sun.

WHEN ALL ELSE FAILS... HAM RADIO...
Getting the message through
for your family and your community!

In an emergency, such as a storm or earthquake, cell phone service, internet services and land lines are often inoperable or overwhelmed. How would you communicate with your neighbors, or broadcast a call for help?

HAM RADIO is the answer and encouraged by emergency management departments everywhere! It is reliable, inexpensive and simple to get started. HAM RADIO operators are critical to emergency response.

FREE

INSTRUCTION & LICENSE STUDY GUIDES

This course is free with only a \$15 fee for the test materials.

- A HAM Radio can be purchased for as little as \$34!
- The training is not difficult. You'll learn all you need to know to get on the air in 2 days!
- Local HAMs in your area are eager to help you successfully get on the air.
