Modification of 6 Aug 2018 Burn Ban in the City of Forks

In light of the anticipated rains tonight, and this coming week, the City of Forks Burn Ban is modified to permit the use of recreational fires in fire pits, briquette barbeques and wood fired smokers. A recreational fire is defined as being one that is controlled within a three foot (3') diameter with height of materials and flames not exceeding two feet (2'). Such fires cannot be used to burn trash, paper, etc.

Utilization of gas fired grills is still permitted under this clarification and/or modification.

Please remember, that there is no residential burning (yard debris, etc.) within the City of Forks and the Forks Urban Growth Area which is nearly all of Forks Prairie.

Signed this 7th of September 2018.

Bill Paul

Fire Chief

Clallam County Fire District #1
